

Water Activated Tape Dispenser

For all types of standard or reinforced gummed paper tape

Make your packaging line more productive and efficient with this electronic gummed paper tape dispenser. Subjected to extremely rigorous testing to ensure high reliability, long life and low maintenance, this dispenser is **ideal for closing your boxes quickly and efficiently**, allowing you to increase and improve the productivity and efficiency of your packaging line. Suitable for medium and large-scale uses that require greater speed in the process of closing and sealing packaging and cardboard boxes, the **Water Activated Tape Dispenser** offers precise tape distribution and is equipped with multifunctions to meet the specific needs of your business.

Advantages:

- Reliable and safe;
- Faster and more convenient;
- Multiple and flexible operating modes;
- Repeat function;
- Allows you to program the desired length;
- Compact and lighter, takes up little space;
- Practical and very easy to use;
- Larger water tank for fewer interruptions;
- Low noise during operation (less than 60dB).

Machine Specifications:

Reference	NVSEMGF10001
Machine Dimensions	45x24x33cm
Dispensing Speed	0.8-1.1m/s
Water Bottle Capacity	2.1L
Tape Width	2.5-8cm
Maximum Diameter of Tape Roll	≤22cm
Cut Paper Length	13-300cm
Output Speed	1.1m/s
Rated Power	200W
Power Input	100/110/220V
Machine Weight	12.5kg

We have a wide range of simple or reinforced gummed paper tapes in brown or white. Possibility to customize with your brand. Ecological and eco-friendly solution.
